Information Disclosure Statement

The present Information Disclosure Statement is being filed: (1) No later than three months from the application's filing date; (2) Before the mailing date of the first Office Action on the merits (whichever is later); or (3) Before the mailing date of the first Office Action after filing a request for continued examination (RCE) under §1.114, and therefore, no Statement under 37 C.F.R. § 1.97(e) or fee under 37 C.F.R. § 1.17(p) is required.

In compliance with the concise explanation requirement under 37 C.F.R. § 1.98(a)(3) for foreign language documents, Applicant encloses herewith a copy of a Japanese Office Action dated November 18, 2003 with an English translation of the pertinent portions thereof which cite such documents and indicate the degree of relevance found by the foreign patent office.

The submission of the listed documents is not intended as an admission that any such document constitutes prior art against the claims of the present application. Applicant does not waive any right to take any action that would be appropriate to antedate or otherwise remove any listed document as a competent reference against the claims of the present application.

The USPTO is directed and authorized to charge all required fees, except for the Issue Fee and the Publication Fee, to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account. A duplicate copy of this paper is attached.

Respectfully submitted,

- Claims 1 through 35
- Cited Literature 1 through 3
- Remarks

Cited Literature 1 describes an electronic ticket issuing system (second mode of embodiment) whereby ticket reservations and purchasing is performed with a terminal device connected to an issuing center via telecommunication lines. The use of a conventional personal computer located in an individual's home as said terminal device is pointed out, and it is stated that the recording medium for storing ticket information is not limited to optical IC cards.

Furthermore, providing an electronic data confirmation terminal for confirming issued electronic ticket data at the time of use on the client side is well known for electronic ticketing systems (cf. Cited Literature 2 and 3).

Cited Literature 3 describes a verification device (IC card) equipped with a ticket storage unit that stores multiple types of electronic ticket information.
